CORE COMPETENCIES

API Integration & Automation

Customer Relationship Management

Fraud Detection & Prevention

Credit Management & Banking Operations

Product & Process Optimization

Project Management and Execution

Digital Lending & Fintech Integration

Risk Assessment & Compliance

Business Growth & Portfolio Management

ACADEMIA

- Indian Institute of Technology (IIT), Kanpur
— Dual Degree (B. Tech & M. Tech) in
Mechanical Engineering: May 2011, Kanpur

TECHNICAL SKILLS

- Programming & Data Analysis:** Python, SQL, Machine Learning
- Business & Operations:** Operations, Credit Management, Sales

CERTIFICATIONS

- IBM Data Science – Coursera
- IBM AI Developer – Coursera
- CS50: Introduction to Programming – edX

PERSONAL DETAILS

- Date of Birth:** 24 November 1986
- Languages:** Hindi, English & Urdu
- Address:** Apt 202, Tower 14, Janadhar Shubha Apt Phase 2, Attibele-Anekal Road, Bangalore, KA 562107

ABDUL BASIT AHMAD

PROFILE SUMMARY

With over **12 years** of experience in **finance** and **banking**, expertise spans **credit management**, **banking operations**, **fintech integration**, and **data-driven decision-making**. Currently serving as **Branch Manager** at **Canara Bank**, leading **operational excellence**, **risk management**, and **business growth**. Successfully spearheaded initiatives to expand total business and reduce the **NPA portfolio**, positioning the branch among top performers. Proven **innovation** in **digital banking**, enhancing **Loan Origination Software** through **API-based automation**, **fraud detection**, and **account aggregation**. Recognized for implementing **100+ digital transformation projects** in one year. A strong foundation in **data science** and **machine learning** developed during research tenure at **IIT Patna**, combined with a **dual degree** from **IIT Kanpur**, blending **technical** and **financial expertise** to drive **strategic transformation** in banking.

WORK EXPERIENCE

Canara Bank | Since Aug 2017

GROWTH PATH

Branch Manager, Mayasandra Branch, Bangalore | May 2023 – Present
Manager, Digital Lending Cell, Bangalore | May 2022 – May 2023
Officer (Credit & Operations), Greater Patna Area | Aug 2017 – May 2022

Branch Manager:

- Reduced the branch's NPA portfolio to 0.44%, ranking among the lowest in the Circle.
- Led the branch to become the top performer in Bancassurance across 51 branches in the region.
- Drove a 25% business growth by implementing strategic initiatives during tenure.
- Upgraded the branch's risk classification to Low Risk in the Risk-Based Internal Audit (RBIA) of March 2024.
- Strengthened customer relationships and streamlined credit processes, enhancing branch efficiency.

Manager (Digital Lending):

- Served as Product Manager for Loan Origination Software, collaborating with business teams and developers to enhance functionality.
- Spearheaded key integrations like Fraud Detection API (Crif HighMark), Account Aggregator API (Sahmati), and JanSamarth Portal, optimizing loan processing.
- Successfully implemented 100+ projects in a fiscal year, a significant improvement from the previous year, earning a letter of commendation for contributions.
- Improved digital lending workflows, enhancing operational efficiency and customer experience.

Officer (Credit & Operations):

- Managed dual roles as Credit Officer and Second-in-Command, overseeing branch operations and compliance across multiple locations.
- Played a key role in doubling the branch's credit portfolio, driving growth through strategic credit management.
- Ensured seamless loan disbursal and risk assessment while maintaining regulatory compliance and fostering strong client relationships.

Junior Research Fellow | IIT Patna, Greater Patna Area | Jan 2012 – Aug 2017

Roles & Responsibilities:

- Conducted data analysis and machine learning research using Python and libraries like NumPy, SciPy, Pandas, Scikit-learn, and Matplotlib, applying techniques for classification and predictive modeling.
- Developed and optimized algorithms to solve complex Partial Differential Equations (PDEs), improving model accuracy and computational efficiency.
- Led data-driven simulations to enhance overall performance and collaborated with researchers to design and implement analytical frameworks for engineering applications.
